Description of Fellowship

NYU Langone Health / Hassenfeld Children's Hospital offers a unique one-year Pediatric Interventional Radiology Fellowship designed to train future pediatric IR specialists. The program provides comprehensive exposure to high-level/complex pediatric IR procedures, clinical consultation, longitudinal patient care, multidisciplinary conferences, and academic and research opportunities. Uniquely, fellows will participate in pediatric IR training while simultaneously maintaining an adult IR practice at NYU Langone Health and Bellevue Hospital. Fellows share adult IR call equally with the adult interventional radiologists. This structure provides the opportunity to develop advanced expertise in pediatric IR while growing broad procedural and clinical proficiency in adult interventional radiology. Applicants may matriculate after either an IR/DR residency or DR residency followed by an adult IR fellowship. Compensation reflects the hybrid pediatric fellowship and adult IR clinical responsibilities.

Fellowship Details

Pediatric IR Section Chief or Division Chief: Frederic Bertino

Pediatric IR Fellowship Director: Dhara Kinariwala

Fellowships Available:

- Pediatric Interventional Radiology Only

Durations Available:

- One year

Number of 1 year or greater Fellowships: 1

Start Date: July 1
