

Boston Children's Hospital

The Boston Children's Hospital Department of Radiology is seeking a pediatric interventional radiologist with demonstrated clinical, research and educational experience to join the Interventional Radiology group. The division encompasses all aspects of pediatric interventions including the provision of exceptional clinical, research and educational services.

The successful candidate will be expected to show demonstrable experience with the performance of a full range of pediatric interventional procedures, including the management of complex vascular anomalies, in both children and adults. The candidate will also be expected to participate in clinical research activities in the field of pediatric interventional radiology. The candidate will also be expected to participate in the PIR fellow training program which trains 2 pediatric interventional radiology fellows per year.

Boston Children's Hospital is a 415-bed institution and performs over 220,000 radiological examinations annually in one of the largest pediatric medical centers in North America. The Department is comprised of more than 50 clinical faculty, research scientists and medical physicists. The department offers fellowships in Pediatric Radiology, Musculoskeletal Pediatric Radiology, Interventional Radiology and Pediatric Neuroradiology and serves as a regional pediatric training site for a number of Radiology residency programs in the northeast. The department of Radiology has state-of-the-art imaging equipment in diagnostic radiography, fluoroscopy, ultrasound, CT, MR, nuclear medicine, interventional radiology and interventional neuroradiology.

The successful candidate will be expected to be eligible for appointment at the Harvard Medical School at the Instructor, Assistant Professor or Associate Professor level commensurate with their clinical expertise, innovation, and academic achievement. Suitable candidates will have an MD or MD-PhD, Board Certification in Radiology, hold a Certificate of Added Qualification in pediatric radiology or IR (or IR/DR certificate), and be eligible for a full Massachusetts medical license.

Interested candidates should send a personal statement with clinical and research interests, three potential referees and Curriculum Vitae to Horacio.Padua@children's.harvard.edu

We are an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, pregnancy or pregnancy-related conditions gender identity, national origin, disability status, protected veteran status, or any other characteristic protected by law.
