

Pediatric Interventional Radiologist

The Department of Pediatric Radiology at Children's Minnesota is seeking a second Pediatric Interventional Radiologist with fellowship training in pediatric and/or adult interventional radiology. The candidate would be joining an experienced group of 15 Pediatric Radiologists with current specialists in Interventional, Neuro/Head & Neck, and Musculoskeletal radiology. Applicants should be BE/BC in pediatric radiology and/or adult interventional radiology with dedicated pediatric interventional radiology experience.

The radiology department at Children's Minnesota performs more than 100,000 imaging procedures a year utilizing the latest imaging technology. This is a great opportunity to join an outstanding radiology program, where you can play a key role in developing and growing the newly formed interventional radiology program. Work alongside one other pediatric interventional radiologist, a physician assistant, and several dedicated IR technologists, in a state-of-the-art pediatric interventional radiology suite. The program is active in several multidisciplinary clinics, including vascular anomalies and pediatric thyroid cancer clinics, and currently performs several hundred procedures annually. The preferred candidate will have strong interests in program development, extensive experience with interventional procedures in children/young adults, and have interest/experience in the interpretation of diagnostic pediatric radiology exams.

Qualifications

- MD or DO medical license or eligibility.
- Board Eligible/Certified in Pediatric Radiology and/or Interventional Radiology.
- Additional fellowship training in Pediatric Interventional Radiology desired.
- Expertise in interventional procedures in children/young adults.
- Interests in pediatric interventional radiology program development.
- Eligible for licensure in Minnesota.

Benefits package includes: competitive compensation, including a base salary with incentive pay opportunities, malpractice, health, dental, disability coverage, retirement plans, solid vacation, CME, relocation allowance and more!

Children's Minnesota is the seventh largest pediatric health system in the United States and the only health system in Minnesota to provide care exclusively to children, from before birth through young adulthood. An independent and not-for-profit system since 1924, Children's serves kids throughout the Upper Midwest at two free-standing hospitals, 13 primary and specialty care clinics and six rehabilitation sites. Additionally, Children's is Minnesota's only Level I pediatric trauma center inside a hospital dedicated solely to children. An award-winning health system, Children's Minnesota is regularly ranked by U.S. News & World Report as a top children's hospital.

Minneapolis/St. Paul, often referred to as the Twin Cities, is the 16th largest metropolitan area in the United States and consistently ranks as one of the top ten most livable places. The Twin Cities area offers a high quality of life, world class arts, excellent school systems, an award winning culinary scene, vibrant culture, professional and college sports, outstanding year round recreation with a bounty of lakes and a half dozen downhill ski areas located within a one hour drive of the Twin Cities.
