

# Pediatric Interventional Radiology Fellowship

## Texas Childrens Hospital

**Location:** Texas USA

**Affiliated Academic Institution:** Baylor College of Medicine

**Contact:** Kamlesh Kukreja

**Email:** kukukrej@texaschildrens.org

**Website:** <https://www.bcm.edu/departments/radiology/education/pediatric-interventional-radiology>

## Description of Fellowship

Texas Childrens Hospital Pediatric IR fellowship is one of the most rounded programs with experience on all aspects of pediatric IR, right from basics of vascular access to complex vascular anomalies. We are currently providing services at four locations, medical center, West Campus- Katy, Woodlands and Pavilion for Women (adult interventions). We have an amazing multidisciplinary vascular anomalies, liver and renal transplant and interventional oncology program. Fellows are assigned an academic day per week and are expected to present at a national meeting as well as submit a manuscript during their training year. There is a weekly conference focusing on M&M, journal club and didactics

Expected planned expansion included 2 additional rooms at the medical center campus (besides current 3 rooms) in July 2018 and additional 1-3 rooms in 2020. The number of fellows training with us will increase to 2 in 2019 and we expect IR residents to train with us in 2019/2020.

For inquiries, please email with your CV.

## Fellowship Details

**Pediatric IR Section Chief or Division Chief:** Kamlesh Kukreja

**Pediatric IR Fellowship Director:** Kamlesh Kukreja

### Fellowships Available:

- Pediatric Interventional Radiology Only
- Combined Pediatric Radiology and Pediatric Interventional Radiology
- Combined Adult Interventional Radiology and Pediatric Radiology
