

Head, Division of Pediatric Interventional Radiology

Department of Radiology

BC Children's Hospital / University of British Columbia

Regular Full Time

Vancouver, BC

BC Children's Hospital Department of Radiology is seeking a visionary to provide clinical and academic leadership as the Head of the Division of Pediatric Interventional Radiology. As the only Children's Hospital in the province, the Department's Pediatric Interventional Radiology service is expanding to better serve the needs of our inpatient and outpatient pediatric population.

The Pediatric Interventional Radiology service is currently staffed by 2 part-time Pediatric Interventional Radiologists and provides the full range of Pediatric Interventional Radiology procedures including diagnostic angiography and vascular intervention, neuro-intervention, hepatobiliary and renal transplant intervention, vascular malformation therapy, long term vascular access, GI tract access and dilatation, joint injections, biopsy, pain management and oncologic intervention.

The successful applicant will join our collegial and dynamic team of 18 Pediatric and Interventional Radiologists who deliver imaging services to BC Children's Hospital and consulting services to the entire province of British Columbia. We are equipped with state-of-the-art 3T and 1.5 T MRI, CT, US, Nuclear Medicine, fluoroscopy, radiography and angiography / IR systems.

The Department of Radiology promotes excellence in clinical practice, education, and research. The Department is affiliated with the University of British Columbia and offers medical school, residency and fellowship training in Pediatric Radiology and Pediatric Interventional Radiology. Permanent funding to offer a full-time Pediatric Interventional Radiology fellowship position has been secured.

As the successful candidate for the Division Head position, you will have demonstrated both a commitment to academic and clinical excellence in Interventional Radiology over several years and the leadership and management skills that are necessary to ensure high quality clinical service and academic productivity. Within this responsibility, the successful candidate will work actively to encourage a culture of teamwork and collaboration within the Division and will promote quality care and patient safety in a family-centered environment. The Division Head will also be responsible for the continued development and direction of the Pediatric Interventional Radiology fellowship program. The clinical responsibilities for the successful applicant may include up to 40% of clinical time in diagnostic Pediatric Radiology. Administrative time and academic time for research and educational activities are supported.

Candidates must be eligible for medical licensure in the Province of British Columbia, have or be eligible for Royal College of Physicians and Surgeons of Canada certification in Radiology and have completed recognized fellowships in Pediatric Radiology and Interventional Radiology.

The successful candidate will be recommended for clinical faculty appointment to the University of British Columbia. Academic rank, dependent on qualifications, will be recommended by the Department of Radiology of the University of British Columbia's Faculty of Medicine.

As per the current Public Health Order, full vaccination against COVID-19 is a condition of employment with PHSA as of October 26, 2021.

Applications, accompanied by a cover letter, detailed curriculum vitae, and teaching dossier should be directed to:

Dr. Heather Bray, MD, FRCPC
Department Head and Medical Director
Department of Radiology
BC Children's Hospital

Email: hbray@cw.bc.ca

Applications will be reviewed immediately and the position will remain open until it is filled

BC Children's Hospital (BCCH) provides care for the most seriously ill or injured children from across British Columbia.

BCCH is a program of the **Provincial Health Services Authority (PHSA)** which plans, manages, and evaluates specialized health services with the BC health authorities to provide equitable and cost-effective health care for people throughout the province. You will be part of a network of more than 2,700 specialized physicians who impact patient care daily, within the largest network of tertiary services in B.C.

Our values reflect our commitment to excellence and include: Respect people – Be compassionate – Dare to innovate – Cultivate partnerships – Serve with purpose.

For more information about BC Children's Hospital, please visit the website at: www.bcchildrens.ca

Learn more about PHSA and our programs: jobs.phsa.ca/programs-and-services

The University of British Columbia (**UBC**) is Canada's third largest university and consistently ranks among the 40 best universities in the world. Primarily situated in Vancouver, UBC is a research-intensive university and has an economic impact of \$4 billion to the provincial economy.

PHSA and BCCH are committed to employment equity, encouraging all qualified individuals to apply. We recognize that our ability to provide the best care for our diverse patient populations relies on a rich diversity of skills, knowledge, background and experience, and value a safe, inclusive, and welcoming environment.

Reconciliation is an ongoing process and a shared responsibility for all of us. The BC Governments' unanimous passage of the Declaration on the Rights of Indigenous Peoples Act was a significant step forward in this journey—one that all health authorities are expected to support as we work in cooperation with Indigenous Peoples to establish a clear and sustainable path to lasting reconciliation. True reconciliation will take time and ongoing commitment to work with Indigenous Peoples as they move toward self-determination. Guiding these efforts Crown agencies must remain focused on creating opportunities that implement the Truth and Reconciliation Commission Mandate.
