

Pediatric Interventional Radiologist

Orange County Pediatric Radiology Associates in conjunction with Children's Hospital of Orange County (CHOC Children's) is seeking a full-time BC/BE Pediatric Interventional Radiologist to join our aggressively growing practice. Successful candidate will have completed a fellowship in pediatric interventional radiology and be eligible for a California Medical license. CHOC Children's is a 330+ bed free-standing tertiary care hospital which offers a full range of pediatric image guided procedures and performs over 90,000 diagnostic studies annually. The design and build of 2 new state-of-the-art dedicated IR suites are in progress to support continued growth of the section.

Daily duties include clinic and procedural time with research and teaching opportunities available. Excellent communication and interpersonal skills with staff and families is required. We offer a competitive salary with bonus potential and a comprehensive benefits package.

Already the regional leader in pediatric care, CHOC Children's health care network has built one of the most advanced and safest children's hospitals in the nation with the Bill Holmes Tower which includes state of the art pediatric imaging department with all major modalities. Within this innovative and healing space, physicians and clinicians employ cutting-edge science and technology to improve care and outcomes for children, making their futures brighter than ever.

CHOC is located in the heart of Orange County, California, 30 miles south of Los Angeles. Orange County is famous for its warm climate with average temperatures of 70 degrees and higher throughout most of the year. Orange County boasts unbeatable entertainment, shopping and attractions with the beaches, mountains and desert all within short driving distance. There is something for everyone.
