2nd International
Meeting

October 20-22, 2011
Phoenix/Scottsdale,
Arizona

Dear colleagues,

Welcome to the second International SPIR meeting, and thank you for taking part in the early history of our society. I look forward to enjoying a stimulating and inspiring educational experience together with all of you in the Arizona sunshine.

As SPIR is currently an all-volunteer and low-membership-dues organization, this meeting is only made possible through the generous contribution of time and financial support by the SPIR board and SPIR member volunteers, as well as through substantial educational support from our industry partners. I take this opportunity to thank them all for their invaluable help.

As you know, our work serves a great cause: the well being of children within a wonderful and supportive community. It has been one of the great privileges of my life to be involved in the pediatric IR community over the years.

SPIR's continued progress and success is assured by the tremendous dedication, drive, innovation and heart of its members. I am glad to tell you that we are growing stronger every year.

Manrita Sidhu, MD
President
