

## PEDIATRIC INTERVENTIONAL RADIOLOGIST - HAMILTON

The Department of Radiology, McMaster University and the Department of Diagnostic Imaging, Hamilton Health Sciences, are seeking a full time pediatric interventional radiologist for the dedicated Pediatric Radiology Program at McMaster Children's Hospital.

McMaster Children's Hospital (MCH) is a pediatric academic centre serving the special and unique healthcare needs of children and youth, using a family-centred model of care. MCH is part of Hamilton Health Sciences and is one of Canada's fastest growing Children's Hospitals. The site is also a provider of advanced women's reproductive health care. Ranked by Newsweek as one of the World's Top 50 Pediatric Hospitals, MCH is an academic teaching and research center affiliated with McMaster University providing regional and provincial leadership for the highest quality integrated maternal, newborn, child and youth healthcare. MCH serves a community of 2.3 million people from south central Ontario and beyond. It is home to one of the largest and most impressive Neonatal Intensive Care Units in Canada, as well as a dedicated Pediatric Emergency Department. Each year MCH has over 210,000 patient encounters in our subspecialty clinics, diagnostic areas, emergency department, inpatient wards and operating rooms. The volume and complexity of pediatric imaging work is constantly increasing. The Pediatric Department is continually expanding, and our imaging team is recruiting to meet the need for expanding dedicated pediatric imaging and intervention services for the site.

The Department is seeking a candidate interested in a full time position, providing pediatric interventional radiology as well as pediatric diagnostic imaging services. The ideal applicant will have completed a minimum 12-month dedicated pediatric diagnostic radiology fellowship, as well as a minimum of 12-month dedicated fellowship in pediatric interventional radiology. Formal pediatric neuroimaging training would be an asset.

This is a full-time academic position at McMaster University, Faculty of Health Sciences, with academic appointment rank commensurate with the candidate's qualifications and experience. The successful candidate will promote clinical scholarship through teaching, mentorship and support for research, demonstrate excellence in clinical care and exhibit collegial, civil relations in all interactions. Collaboration with colleagues on improving pediatric imaging protocols, peer learning, quality assurance and training of technologists is expected. The McMaster Residency Program in Diagnostic Radiology is one of the highest rated training programs in Canada. Pediatric radiologists in our department also teach and supervise residents in our accredited Neuroradiology Residency Program, as well as Pediatric radiology fellows. Participation in teaching and supervision for our residency and subspecialty programs, as well as undergraduate programs is required, with a focus on expanding teaching and training in pediatric radiology. With pioneering education advances and excellence in world-class

research, McMaster University has consistently placed among the top 50 universities in the world for health and medicine. The Michael G. DeGroot School of Medicine is world renowned for its innovative method of small group, problem-based education, and a focus on self-directed, life-long learning. The Department of Radiology provides rewarding opportunities for faculty who are interested in education, clinical excellence, research and multi-disciplinary team projects.

Candidates must be licensed or eligible for licensure in the Province of Ontario, certified (or eligible for certification) by the Royal College of Physicians and Surgeons of Canada, or equivalent, in Diagnostic Radiology and Pediatric Radiology.

All qualified applicants are encouraged to apply; however, Canadian citizens and permanent residents will be considered first for this position. To comply with the Government of Canada's reporting requirements, the employer is obliged to gather information about applicants' status as either Permanent Residents of Canada or Canadian citizens. Applicants need not identify their country of origin or current citizenship; however, all applications must include one of the following statements: "Yes, I am a citizen or permanent resident of Canada" or "No, I am not a citizen or permanent resident of Canada".

Interested applicants should submit a letter of intent, names of three references and their Curriculum Vitae, **all in PDF format** – preferably by email:

Dr. John Donnellan, Head of Service, Pediatric Imaging  
Site Chief of Diagnostic Imaging, McMaster Children's Hospital  
Hamilton Health Sciences
