

Chief of Interventional Radiology, Boston Children's Hospital

Boston Children's Hospital seeks to recruit the next Chief of Interventional Radiology. Interested candidates should have a distinguished record of clinical excellence, teaching, and scholarly accomplishments consistent with a Harvard Medical School appointment at the rank of Professor or Associate Professor. A keen understanding of complex clinical operations and ability to manage capital and operating budgets is desired.

Candidates must be board certified in Radiology or equivalent training and eligible for licensure without restriction within the Commonwealth of Massachusetts. Certificate of Added Qualification in at least one area of subspecialty practice or an IR/DR certificate is required. Fellowship in Pediatric Interventional Radiology is a plus.

All inquiries are confidential. Interested candidates should forward a personal statement and CV to:
